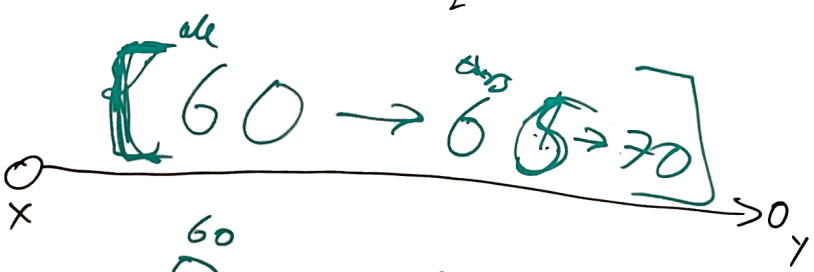
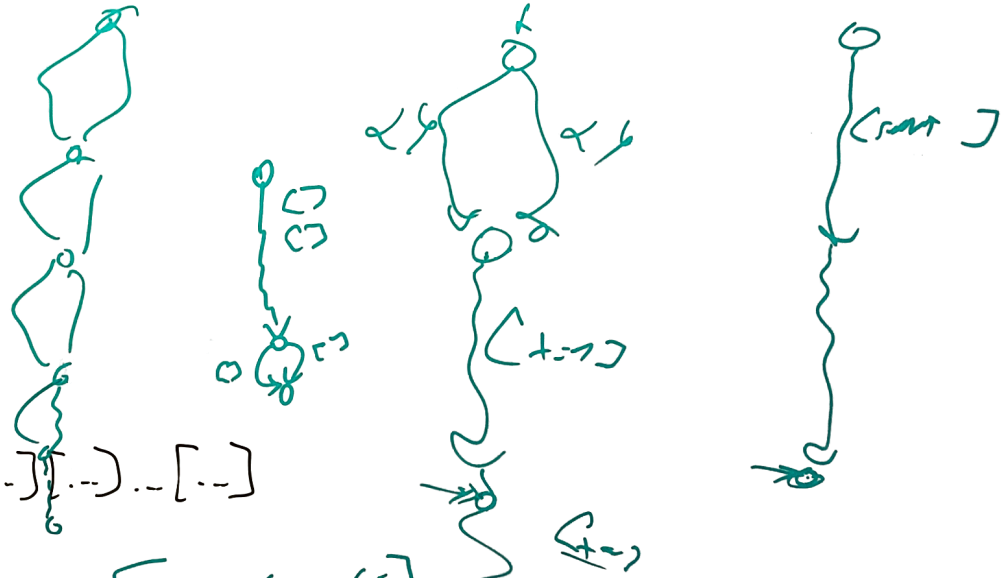
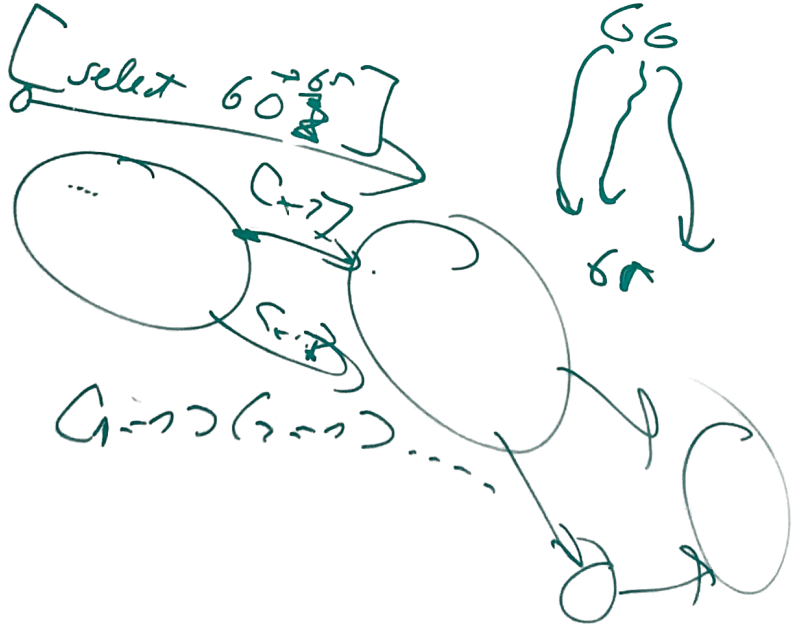
$1 \to 2 : [x=1]$ $2 \to 3 : [y=2]$ … $n \to m : \to x$

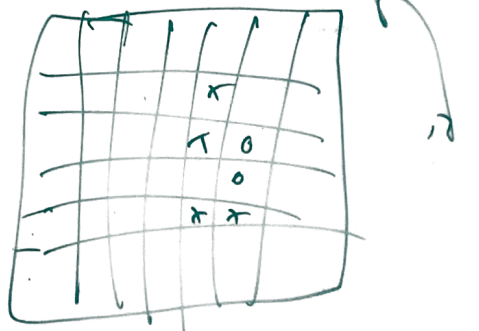
tu zaczynasz

$[x=y]$ $[x=1]$









$[\text{Grid}(\ldots) = x]\,[\text{Grid}(\ldots) = y]$

pos : squares_with_null

board : squares → pieces.

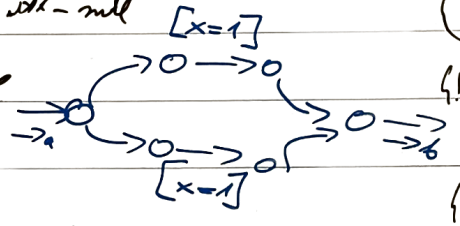
squares = { $v_{00}, v_{10}, v_{20}, \ldots$ } int fr, to;

pieces = { e, w, b }

up : squares_with_null → squares_with_null

black_or_empty : pieces → { T, F }

1. Kółko i krzyżyk.

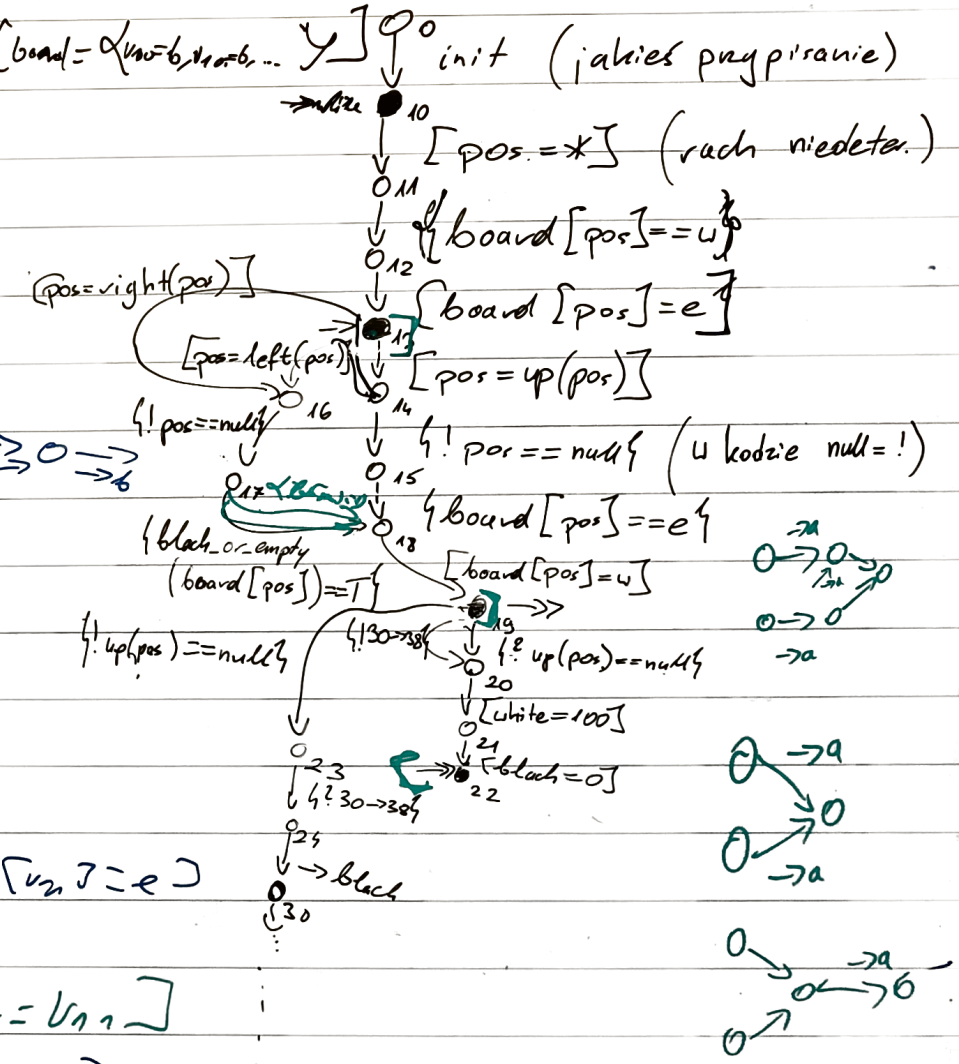


2. Milestones.

3. Tylko jeden przypisanie.

4. Tylko zbiór przypisań.

[board = { ... }] [v_{21} = e]

[pos = v_{00}] [pos = v_{11}]


[pos = v_{11}] [x = 1]
